Operative went to the home of James Curran at 502 Georges Road and interviewed this man. He conducted the road house before Gilliland took it over. He states that he remembers Stumpy well and that Gilliland was a circus performer before he operated the road house. Mr. Curran did not know Anna King or Mary Eislitner. I showed him the picture but he said that he could not remember such a woman. He further stated that after he sold out to Gilliland he did not go around to the place for about 15 years. He could give no further information about Gilliland and I closed the interview.

Respectfully submitted:
